Bouncy Castle Space Required to Erect a bouncy castle Safely

<u>Deep sea</u>	<u>Bounce & Slide</u>	<u>Unit Height</u>	<u>Total Space required</u>
Blower & Inflation Tube Front Safety Fall off Mats Castle Length including Step Castle Width	5 Feet long 3 x 6 feet each mat 15' 4" (184 inches) 14 feet 4 inches (172")	8 feet 4 inches (100")	23 feet 4 inches long x 20 feet wide

It is Recommended that a space of 1 metre or 36 inches is left clear around the whole of the castle to allow for the castle to “SWAY” from side to side.

Thank you.
